📍 Mumbai, Maharashtra Portfolio

Summary

Driven IT engineering student aspiring to grow as a Frontend Developer with skills in HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, and MongoDB. Familiar with DBMS, Operating Systems, Linux, and DSA using Java, with an interest in creating responsive and user-friendly web applications using tools like Figma and Canva. Eager to apply technical skills, learn continuously, and contribute to real-world projects.

Projects

Vero-Smart Attendance Management System

Github

- Developed a full-stack attendance management system using React, Tailwind CSS, Spring Boot, and MySQL with secure authentication and role-based access.
- Built RESTful APIs for real-time attendance tracking and automated reporting, gaining hands-on experience in full-stack development, API integration, and database management.

Gap2Grow – AI-Powered Skill Gap Analysis & Career Guidance Platform

Github

- Combined AI tools with original ideas to create a real-world career guidance solution.
- Explored technologies like NLP, LLMs, and the Gemini API to generate personalized career recommendations.
- Improved understanding of web development, problem-solving, and AI-based application architecture

ClinerVa-AI-Powered Clinical Trial Matching Platform

Github

- An AI-powered platform that matches patients with suitable clinical trials using anonymized medical data, analyzing eligibility criteria to provide accurate, explainable recommendations.
- Simplified clinical research and improved healthcare accessibility through team collaboration and efficient communication.

Education

■ HSC-SVP jr. College	80.83%	2024
■ TSEC - Mumbai University		2024-2028
• B.Tech in Information Technology	CGPA : 8.86	

Technical Skills

- Languages: Java, JavaScript, Python, C.
- Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Typescript, Next.js
- Databases & ORM's : MongoDB, MySql, PostgreSQL, Prisma ORM, MongoDB Compass, MongoDB Atlas, Neon PostgreSQL, MySQL Workbench
- Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render.
- Concepts: REST API design, JWT, OAuth 2.0, DSA, OOP, DBMS, OS

Experience

FullStack Developer InternMay 5, 2025 – June 5, 2025

DecodeLab :Remote

- *Completed a one-month intensive training-based internship focused on full-stack web development, covering both frontend and backend technologies in a remote, collaborative environment.*
- *Developed responsive, pixel-perfect UI components using React.js and Tailwind CSS, applying best practices for component reusability and state management.*
- *learning how to configure environment variables and manage production builds.*

Extracurricular Activities

24-Hour Hackathon Participant

2025-2026

- *Participated in an intensive 24-hour hackathon, collaborating with a team to design and develop a working prototype under time constraints.*
- *Strengthened skills in rapid prototyping, team communication, and end-to-end problem solving in a competitive environment.*

DSA Battle Ground – Competitive

2025 – Present

- *Actively participated in DSA Battle Ground competitions, solving algorithmic challenges across arrays, trees, graphs, and dynamic programming.*
- *Consistently practiced problem-solving using Java to build a strong foundation in data structures and algorithms.*
